

**REMARKS / ARGUMENTS**

Reconsideration of the application as amended is respectfully requested.

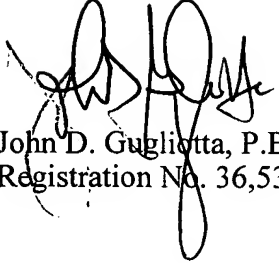

The specification has been amended and replacement drawings attached hereto sufficient to overcome the objections cited by the examiner. In particular, reference numerals 27 is shown in FIG. 2 and FIG. 4; reference numeral 129 is shown in FIG. 10; and reference numerals 160 and 166 of FIG. 10 are described in the specification, page 13, first paragraph (lines 7 and 8, respectively). Any further guidance is greatly appreciated by the applicant.

Before entry of the present amendment, Claims 1-17 were pending. Claims 15-17 were allowed and claims 4-12 were objected to as being dependent upon a rejected base claim, but were considered allowable if rewritten in independent form. This has been done. Further, claims 1-3 were canceled, and claim 13 was rewritten to be dependent upon revised Claim 4, and should therefore now be allowable. Further, claim 14 is now dependent upon revised claim 13, and should also now be allowable.

Finally, according to the amendment there are now six (6) independent claims. As such, an additional filing fee of \$300.00 is required, and a check is enclosed. The Commissioner is request to charge any additional filing fees, or credit any overpayment associated with the prosecution of this application, to USPTO Deposit Account 07-2380.

Therefore, in view of foregoing amendments and clarifications, the applicant submits that allowance of the present application and all remaining claims, as amended, is in order and a formal Notice of Allowance is respectfully requested at the earliest possible date.

Respectfully submitted,
